Installing the WebEx Application

The WebEx Meeting Center application is required to join meetings from your iPhone or iPad. You can download the application from the iTunes App store by using this link or search the app store using the keyword “WebEx”.

Joining a Meeting

Option 1: Click the meeting link in your email invitation.
Option 2: Enter in the meeting number from within the WebEx application.

When joining a meeting, enter the following details on the Join Meeting page:

- **Your name**: Enter the name you want attendees to use to identify you during the meeting.
- **Email address**: Enter your email address. For example, msmith@company.com.

Using Voice-over-IP (VoIP) for Audio

VoIP allows you to communicate with meeting attendees using your mobile or wireless internet connection.

- The Audio Conference dialog box appears automatically on your screen upon joining a meeting, select Call Using iPad or Call Using Internet (iPhone).

**Tip**: You can pinch and zoom the presentation to magnify the presentation. You can also pinch and zoom the various participants’ video feeds to change the focus of the main window.

**Note**: WiFi connection recommended as data charges may be incurred if using your cell data connection.

You can find additional resources by visiting the Cisco WebEx User Guides section on the MedIT WebEx site. For support, please contact the MedIT Service Desk at 1.866.266.0666 Opt. 2.
