

THE UNIVERSITY OF BRITISH COLUMBIA
CLINICIAN INVESTIGATOR PROGRAM
Postgraduate Medical Education

**CSCI/CIHR Resident Research Manuscript Prize
UBC Competition Evaluation Form**

This form must be completed by the senior author of the manuscript being presented for competition. Only published or in press/accepted manuscripts (*review articles are not acceptable*) will be considered in this competition. In press/accepted manuscripts must include a letter or copy of an email acceptance of the manuscript.

- Please provide statement of the resident's contribution/percentage of involvement

- Please comment on the strengths and weaknesses of this manuscript in each of the following areas:
 - Evaluate work on face value independent of the publication status of the manuscript

 - Novelty of research – has this been done previously?

 - Importance/impact of research – will this work influence clinical practice/standards? Will it have impact on future research?

 - Quality of the discussion

 - Quality of research methodology
