The Experimental Medicine Program is hiring Postdoc Teaching Fellow for MEDI 503 - Introduction to Clinical, Patient Oriented and Translational Research.

The Postdoc Teaching Fellow will be working with the course directors, Drs. Cheryl Gregory-Evans and Alice Mui to deliver MEDI 503 to around 30 master's students. The primary focus of this course will be to provide education and training for those pursuing clinical, patient oriented, and translational research. The course will last for approximately 13 weeks with two 90-minute sessions per week. Sessions will be a mixture of didactic lectures, discussion, and group projects.

Start Date: September 7, 2022
End date: December 17, 2021
Term type: Part time

Main activities and responsibility:

- Develop where appropriate revisions to existing courses in terms of design, content, structure, forms of delivery, method of assessment.
- Develop and mark coursework assignments, quizzes, and exams, providing constructive feedback to students.
- Deliver lectures on topics related to translational medicine, knowledge translations, and research methods, occasionally.
- Assist lecturer and course coordinators in developing teaching materials
- Liaise with lecturers to confirm learning objectives and teaching schedule, upload course materials to UBC Canvas
- Liaise with departmental administrative staff to reserve classrooms, AV/IT equipment, and submit grades.
- Mentor and supervise students through tutorials, advising on study skills, and helping with learning problems.
- Supervise and provide feedback on student projects
- Carry out on-going curriculum review including module content and materials and contribute to learning and teaching strategy.
- Contribute to the accreditation of programs and quality control processes by providing formative and summative feedback to the department

Qualification:

- In-depth understanding of translational medicine, knowledge translation and implementation science
- Experience of teaching, curriculum development, and quality management
• Excellent written and verbal communication skills
• Act as a responsible member of the teaching team, leading where agreed, and develop productive working relationships

Eligibility:
Current UBC Postdoctoral Research Fellows with the capacity for additional part-time teaching work (subject to approval from their current research supervisor) are eligible to apply.

Application:
Please send your CV and cover letter to medi.exptlmed@ubc.ca. Shortlisted applicants will be invited to an interview with the course directors.

Equity and diversity are essential to academic excellence. An open and diverse community fosters the inclusion of voices that have been underrepresented or discouraged. We encourage applications from members of groups that have been marginalized on any grounds enumerated under the B.C. Human Rights Code, including sex, sexual orientation, gender identity or expression, racialization, disability, political belief, religion, marital or family status, age, and/or status as a First Nation, Metis, Inuit, or Indigenous person.
